

Venturi has been specifically developed as a non-lethal solution to catch large body insects such as Wasps and Hornets.

The key benefit of Venturi is that it won't necessary kill the insects. The patented phosphorescent fan draws the Wasp down into the air locked storage unit from where they can either be liberated outside or left to dry out in the unit. The Venturi technology offers an ultra-fast performance and very large catching rate. Venturi is the first Fan Technology Flytrap, designed, patented and manufactured in Europe.

Why Venturi

Quality

- Over 40 years' experience in manufacturing
- Manufactured from European quality parts and materials
- Each unit is quality assessed by or team before dispatch

Quiet

- Electric motor is quiet & effective
- Venturi Fan balanced and optimised
- Low noise & discreet operation

Attractive

- Modern aesthetic design
- Available in different colours
- Compact and flexible

Reliable

- Proven reliability
- Free 3-year manufacturer's warranty
- Low running costs

How it works

The operation of the VENTURI units could not be easier, just simply plug in and position the units where needed and turn the unit on the VENTURI unit will then very quietly begin to attract and draw in the Wasps and Fly`s into

the sealed storage unit. The units can be positioned on the wall or ceiling or simply

placed on a work surface or in front of a food counter. Although very quiet and effective the VENTURI unit also not only a quality well-made attractive looking unit but it also looks like it is built for the job and shows customers that you take their health & safety very seriously by investing in the very best Wasp and Fly control solutions.

Our latest Venturi units now utilise LED light attractant technology as a very cost effective, environment friendly solution compared to traditional light tubes.

Key Features

- QUIET AND DISCREET
- FAST CATCH RATE – PATENTED PHOSPHORESCENT FAN TO DRAW THE WASPS IN
- TRAPS LARGE FLYING INSECTS SUCH AS HORNETS
- LOW MAINTENANCE COSTS AS NO GLUEBOARDS REQUIRED
- NON-LETHAL
- CONTAINS NO HARMFUL PESTICIDES OR CHEMICALS
- NO ELECTROCUTION OR EXPLODING PARTICLES OR SMELL
- EASY TO OPERATE
- LOW POWER USAGE
- AUTO POWER OFF FEATURE
- CAN BE CEILING, COUNTER OR WALL MOUNTED
- 100% EUROPEAN QUALITY MADE PRODUCT
- RELIABLE – BACKED UP BY A 3-YEAR MANUFACTURER'S WARRANTY

Technical specifications

- UV ROUND TUBE: 1 X 32 WATTS
- MAIN'S VOLTAGE: 230 V / 50 HZ
- TOTAL POWER CONSUMPTION: 50 WATTS
- SIZE: W X D X H 270 X 165 X 380 MM
- WEIGHT: 2.2KG
- WEEE REG. NO.: DE 90338121
